1100 DISTRICT ORGANIZATION

The Board of Education directs the establishment and implementation of an organizational plan for the management and control of school district operations. The plan will require the identification and resolution of problems at appropriate organizational levels. All references to school district administrators in policies or regulations shall be construed to mean that administrator or designee.

All members and employees of this Board are directed to observe faithfully the chain of communications established by the district organizational plan. In general, a problem should be identified and its resolution attempted at the level most immediate to the problem's origin. When a resolution cannot be found at that level, remedy may be sought through appropriate resolution and remediation procedures.

The Board expressly disapproves of any attempt to expedite the resolution of a problem by disregard of the organizational plan and the appropriate processes. A staff member's persistent disregard for the established management organization of this district in violation of this policy will be considered an act of insubordination subject to discipline.

Reasonable Accommodation

The Board of Education will make reasonable accommodation to the known physical or mental limitation of any otherwise qualified handicapped/disabled applicant or employee unless the Board can demonstrate that the accommodation would impose an undue hardship on the operation of the program. Reasonable accommodation may include making facilities used by employees readily accessible to and usable by handicapped/disabled persons and job restructuring, part-time or modified work schedules, acquisition or modification of equipment or devices, the provision of readers or interpreters, and other similar actions. In determining whether the accommodation would impose an undue hardship on the operation of the program, the Board of Education will consider:

1. The overall size of the school district's program with respect to the number of employees, number and type of facilities and the size of the budget;
2. The type of operation, including the composition and structure of the school district's workforce; and
3. The nature and cost of the accommodation needed.

The Board of Education will not deny any employment opportunity to a qualified handicapped/disabled employee or applicant if the basis of the denial is the need to make reasonable accommodation to the physical or mental limitations of the employee or applicant.

Employment Criteria

The Board of Education and its administration will not use any employment test or other selection criterion that screens out or tends to screen out handicapped/disabled persons or any class of handicapped/disabled persons unless the test score or other selection criterion is shown to be job-related for the position in question and alternative job-related tests or criteria that do not screen out

as many handicapped/disabled persons shown by the Coordinator to be available. The Board of Education and its administration may select and administer tests concerning employment so as to best ensure that when administered to an applicant or employee who has a handicap/disability that impairs sensory, manual, or speaking skills, the test results accurately reflect the applicant's or employee's job skills, aptitude, or whatever factor the test purports to measure, rather than reflecting the applicant's or employee's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure).

Pre-employment Inquiries

Except as provided for in this regulation and the Rehabilitation Act, the Board of Education and its administration, will not conduct pre-employment medical examination and will not make pre-employment inquiry of an applicant as to whether the applicant is a handicapped/disabled person or as to the nature or severity of the handicap/disability. The school district may make pre-employment inquiry into an applicant's ability to perform job related functions.

When the Board of Education is taking remedial action to correct effects of past discrimination or to overcome the effects of conditions that resulted in limited participation in its federally assisted program or activity, as provided for in the Rehabilitation Act, or when the Board is taking affirmative action pursuant to §504 of the Rehabilitation Act, the Board may invite applicants for employment to indicate whether and to what extent they are handicapped/disabled. This is permitted provided the Board states clearly on a written questionnaire or makes clear orally if no written questionnaire is used that the information requested is intended for use solely in connection with its remedial action obligations or its voluntary or affirmative action efforts and the Board states clearly that the information is being requested on a voluntary basis, that it will be kept confidential, that refusal to provide information will not subject the applicant or employee to any adverse treatment, and that the information will only be used in accordance with this part of the Regulation and applicable section of the Rehabilitation Act.

The Board of Education may condition an offer of employment on the results of a medical examination conducted prior to the employee's entrance on duty provided that all entering employees are subjected to such an examination regardless of handicap/disability and the results of such an examination are used only in accordance with the requirements of the policy, regulation and the Rehabilitation Act.

Information obtained in accordance with pre-employment inquiries as to the medical condition or history of the applicant will be collected and maintained on separate forms that will be accorded confidentiality as medical records. Supervisors may be informed of restrictions on the work or duties of handicapped/disabled persons and any reasonable accommodations. First aid and safety personnel may be informed, where appropriate, if the condition might require emergency treatment. Government officials investigating compliance with the Rehabilitation Act shall be provided relevant information upon request.
